Personal information

Title: < Associate professor >

Gender: (M/F) <Male>

Name: <Ming Peng>

Suffix: <N/A>

Mailing address (Street or Postal Box): <Yantu Building 513, Siping Road 1239>

City: <Shanghai>

Province/State: <Shanghai>

Postal code: <200092>

Country: <China>

Email address: <pengming@tongji.edu.cn>

Website: <

>

Phone number: <86-21-65982227>

Fax number: <N/A>

Current affiliation: <Tongji University>

Job title: <N/A>

Education Background

Highest degree received: <PhD>

Received from: <The Hong Kong University of Science and Technology>

Major: <Geotechnical Engineering>

Professional background

Professional background relevant to GEOSNet:

<I am majored in dam failure mechanisms and risk assessment. I have built a quantitative risk assessment model and a dynamic decision model for dam breaching. I believe my research work would be helpful for geotechnical engineering risk assessment in GEOSNet>

Main reasons for your interest in GEOSNet and potential contributions to the network:

<I think GEOSNet is a wonderful group for concentrating the scholars from all over the world to deal with significant practical and research challenge in geotechnical engineering. I am also very interested in solving problems in such a field. In GEOSNet, we can share with our knowledge and cooperate with each other to minimize the disasters in geotechnical engineering. If I am accepted by your honored group, I will

take an active part in the activities organized by GEOSNet and contributes to the group with all my knowledge on quantitative risk assessment and dynamic decision making in dam engineering.>
