### Education Background

Highest degree received: <Ph.D. Doctor of Philosophy>

Received from: <University of Oslo>

Major: <Geosciences, Geotechnical Engineering>

### Professional background

Professional background relevant to GEOSNet:

<I am involved in projects linked to submarine pipelines in deepwater, where offshore geohazards must be identified and quantified in order to select the best route for the pipelines in terms of safety and cost.>

Main reasons for your interest in GEOSNet and potential contributions to the network:

< Networking with geotechnical and geoscience colleagues involved in hazard and risk themes to share relevant information and experiences >
